EXPLOR – RE-STARTS DRILLING ON EASTFORD LAKE GOLD PROJECT

Rouyn-Noranda, Canada, February 25, 2009.

Explor Resources Inc. is pleased to announce that it has completed its initial modelling of the holes that have intersected the LYNX Gold Zone (Press Release June 10, 2008 and February 09, 2009). The new drilling is designed to test the strike and depth of the high grade visible gold vein that was initially discovered in Hole #EG-09-07 and the recently drilled wedge holes. The main vein of the Lynx Gold Zone contains visible gold and appears to strike in a north-north westerly direction and dip steeply to the south-south west. The property is situated to the south-west of Lake Abitibi, Ontario, 90 km east of the Timmins-Porcupine gold mining camp. The Eastford Lake Property consists of 170 contiguous unpatented mining units for a total of 3,100 hectares.

The combination of widespread ankerite alteration and gold mineralization hosted by many different rock types, including quartz-feldspar porphyry, altered ultramafics, tholeiitic basalt and metasediments are reminiscent of the diverse types of gold mineralization found in major gold camps (e.g. Hollinger-McIntyre System and Dome Mine in the Porcupine Gold Camp). Explor will continue drilling the newly defined gold zone once the modelling is complete.

Chris Dupont P.Eng is the qualified person for Explor Resources Inc. and is responsible for the information contained in this release.

Explor invites its investors to visit our booth #2122 at the Investor Exchange of the PDAC 2009 located in the south building of the Metro Toronto Convention Center from March 01 to March 04, 2009.

About Explor Resources Inc.

Explor Resources Inc. is a Canadian-based natural resources company with mineral holdings in Ontario, Québec, Saskatchewan and New Brunswick. Explor is currently focused on exploration in the Abitibi Greenstone Belt. The belt is found in both provinces of Ontario and Québec with approximately 33% in Ontario and 67% in Québec. The Belt has produced in excess of 180,000,000 ounces of gold and 450,000,000 tonnes of cu-zn ore over the last 100 years. The Company is headquartered in Québec and was incorporated in Alberta in 1986.

This document may contain forward-looking statements relating to Explor's operations or to the environment in which it operates. Such statements are based on operations, estimates, forecasts and projections. They are not guarantees of future performance and involve risks and uncertainties that are difficult to predict and may be beyond Explor's control. A number of important factors could cause actual outcomes and results to differ materially from those expressed in forward-looking statements, including those set forth in other public filings. In addition, such statements relate to the date on which they are made. Consequently, undue reliance should not be placed on such forward-looking statements. Explor disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, save and except as may be required by applicable securities laws.

Explor Resources Inc. is a public listed company trading on the TSX Venture (EXS).
